

SINGLE ENERGY HEALING SESSION

daniela
mouser

EMANCIPATION OF THE SOUL™

living from your true self

A single healing session will start with an evaluation of your energetic system to assess what the focus will be. The session is specifically designed for you with techniques that you can use at home even after the session. Depending on the clients needs, different healing techniques will be used. Such as messages from your angels and loved ones, color and crystal therapy, soul retrieval, past life regression, spirit removal, and many other healing methods to help you overcome challenges, trauma and karmic patterns. The healing is not done after the session is over so you will typically receive homework from Daniela to further integrate and anchor the healing.

60 min initial session \$125

sessions thereafter \$75 if booked within 3 months of last appointment

To make an appointment call or email Daniela. Please make sure to include your name, contact information and time zone in your email as well as whether you are looking for a Skype or in person session.
